1. Statement of Interest and Experience

- Why your organisation is interested in the project
- Your organisation's experience working on School Master Plan projects or similar
- How your organisation's service(s) or practice(s) are relevant to the project

2. Organisation History

- Mission statement
- A brief history of the organisation including years of operation
- Description of your organisation's current programs and services
- Information on any awards, successes and relevant impact statistics
- A listing of three referees, relevant to the project

3. Vision for the Project (3 pages maximum)

- Specific goals/approaches for the project (with reference to the proposed College Master Plan strategic priorities as listed below) based upon your assessment

4. Consideration of strategic priorities for the Lourdes Hill College Master Plan

The College *Master Plan Towards 2030* will provide a roadmap for the development and optimisation of new and existing infrastructure to achieve a future vision of the site which is aligned with the mission of the College and the charism of Good Samaritan Education. It will embrace global evidence around successful learning environments and technology, as well as support the College's ability to nurture each student to her full potential.

It must address the College's planning priorities which include (but are not limited to):

- Development of a transport hub and/or improvements to road traffic infrastructure and parking accommodation on the campus, to support student safety and reduce the College's impact on traffic congestion in the community;
- Delivery of new buildings and/or enhancements to existing buildings which ensure classrooms, activity areas and circulation spaces reflect contemporary teaching and learning practices and provide the opportunity to grow the College's enrolment;
- Replacement of the College swimming pool and the development of options for on-site or off-site accommodation for a College Caretaker to support the supervision of increased activities on campus outside school hours; and
- Development of increased energy generation capacity at the College and implementation of environmentally sustainability solutions.
